Dear Ms. Larsen:

We are delighted to invite you to attend the pilot running of the Intelligence Issues Course, 14-22 July 1986. The course will examine the intelligence process, the organization of the Intelligence Community, and current intelligence issues. Among the issues to be covered are terrorism, narcotics, and significant events in the Soviet Union.

As a member of the Intelligence Community you could help clarify responsibilities and relationships. And we believe the opportunity to meet your counterparts in the Agency would be valuable for you. We also believe that you will find the information, the exercises, and the field trips useful.

For more information about the course and to indicate your interest and availability, please contact the Course Director, as soon as possible.

Sincerely,

Director
